ABOUT ME

IF I CAN'T BUILD IT, I'LL LEARN HOW TO

Hi! I am Kristof Dewilde, an ambitious developer with an eye for detail, a never-ending appetite for learning and a healthy sense of humor.

Ever since I was allowed to use the family computer, I've been building things, pushing my limits and discovering new or better ways to achieve my goals, always keeping my core values in mind: solidity, efficiency, simplicity and maintainability.

While Java and JavaScript are my bread and butter nowadays, there is not one programming language or framework that scares me!

I take pride in my work and will always strive for quality. A good product is what motivates me to build an even better product.

WORK EXPERIENCE

AT AWESOME COMPANIES

TELENET GROUP

MAY 2018 / CURRENT

FULL STACK JAVA CONSULTANT AT MECHELEN, BE

Worked at Telenet on a great team responsible for BASE's AEM powered website and a couple of Java based internal Telenet and BASE applications.

DESIGN IS DEAD

MAY 2018 / CURRENT

FULL STACK JAVA DEVELOPER AT WATERMAEL-BOITSFORT, BE

Back in Belgium I joined forces with Design is Dead, and joined their team of fearless developers as I too, was ready for every challenge yet to come.

GEOSYS

MAR 2017 / SEP 2017

FULL STACK MOBILE DEVELOPER AT IL-GŻIRA, MT

A 3 month end-of-studies internship abroad followed by a job offer I accepted for another 3 months, prior to going back to Belgium and resume studying.

EDUCATION TIMELINE

SCHOOL IS COOL

SEP 2013 / JUN 2017

APPLIED COMPUTER SCIENCE

BACHELOR DEGREE AT UC LEUVEN-LIMBURG, LEUVEN, BE

Graduated cum laude with a major in software, focus on Java backend development, and took some system and networking classes as well.

SEP 2011 / FEB 2018

DIGITAL DESIGN & DEVELOPMENT

BACHELOR DEGREE AT UC LEUVEN-LIMBURG, BE

Unfortunately never finished this degree, but took interesting classes with a more elaborate focus on design, UX and gained valuable frontend skills.

LINGUA

NON-PROGRAMMING

ENGLISH

★★★★★

Full professional proficiency

DUTCH

★★★★★

Native or bilingual proficiency

FRENCH

★★★★★

Native or bilingual proficiency

TECHNICAL SKILLS

MY MAIN TECHNOLOGY STACK

JAVA

★★★★★

Spring Boot to native Android

JAVASCRIPT

★★★★★

Node, Vue, Angular, React, ...

HTML+CSS

★★★★★

Modern or legacy, I can handle it

PHP

★★

Very rusty, but I could do it

It's a Match?

THEN LET'S TALK!

Let's grab a coffee sometime and discuss what we could mean for each other in the future.
